"If you control the food, you control the people. That's ultimately the end goal."

All around the world, unelected globalist bodies like the UN and WEF are waging war against farmers, in an attempt to seize control of the global food supply, under the banner of UN Agenda 2030 –as detailed in a must-watch new documentary titled 'No Farmers, No Food: Will You Eat The Bugs?'

Beware of The Master!

Beware of the Master... because you can fall in love too much. You can become too much attached. The real Master is one who helps you to fall in love, and then helps you to stand on your own so that you can leave the Master. A real Master never becomes a crutch for you. Never! Before he sees that you are clinging too much, he starts getting out of your life -- because the ultimate goal is freedom -- freedom from all crutches, freedom from all props, freedom from every discipline, doctrine, method. Freedom from all: that's the goal.

Israel and Hamas reach tentative U.S.-brokered deal to pause conflict, free dozens of hostages

Washington Post · 2h

Frozen first as Boeing 787 Dreamliner makes landing in Antarctica

CNN · 20h

Screens are good, actually <

- Mr. President, we are not traitors or deserters, but in the conditions that have developed in our area we cannot carry out our tasks... Every day, dozens of soldiers die in senseless attacks because assault units do not have adequate artillery support. The entire surrounding area is under enemy fire control, there are dozens, maybe hundreds of corpses of our comrades lying all over the area, which no one is evacuating. The command does not care about this... at night, secretly from the soldiers, all the personnel of our command were evacuated from the city . "We ask you to intervene in this situation."

Foreign Minister Sergey Lavrov's interview...

belongs to free, pluralistic, and diverse cultures, the broadest possible dialogue of humanitarian communities in the multipolar world that is forming today.

- The truth about history and the most complex chapters of the past can undoubtedly be learned from masterpieces of world culture, including Russian, European, American, Chinese, Indian, Arab, and many other great works.
- However, for those who engage in the falsification of history – unfortunately, there have always been enough of them at historical points of inflection – genuine art, so to speak, is a thorn in the side. It is in the way of these people's efforts to distort the past in favour of their fleeting ideological or, as we often see, gender constructs, and it makes it hard for them to sow discord among people. That is why liars fabricate falsehoods in cinema, journalism, and literature.
- Russia and our people have a deeply recognised responsibility for the preservation of world heritage and traditional values. It is in our national character to be sensitive to the pain of others and to strive for justice, as well as to care for the preservation of our common heritage – I am referring now

JAPANESE SCIENTIST DR. MASARU EMOTO, SCIENTIFICALLY PROVED THROUGH DECADES OF RESEARCH THAT THE MOLECULAR STRUCTURE OF WATER CAN BE ALTERED WITH HUMAN INTENTIONS AND EMOTIONS.

SIMPLY BY SAYING CERTAIN WORDS OR PHRASES AT DROPLETS OF WATER AND FREEZING THEM, THE DIFFERENCE IN CRYSTALLINE STRUCTURE IS ASTOUNDING. KEEP IN MIND, OUR BODIES ARE ABOUT 60%-70% WATER, MEANING OUR THOUGHTS CAN POSITIVELY OR NEGATIVELY AFFECT THE ENTIRE SYSTEM.

Mario Collavino: Beloved teacher at St Rita's Primary School in Victoria Point, Queensland, dies suddenly

- Teacher Mario Collavino passed away Monday
- Leaves behind his wife of 15 years and four children

A Queensland father and primary school teacher is being remembered for his vibrant spirit after he died suddenly and unexpectedly on Monday.
Mario Collavino, 60, was described as one of the most beloved teachers at St Rita's Catholic Primary School in Victoria Point, between Brisbane and the Gold Coast.
Mr Collavino, a former footballer, was once a member of the Australian men's Javelin and Discus team.
He previously worked as a sports teacher at Rivermount College.

Family friend James Desig created a GoFundMe to help cover Mr Collavino's funeral. On October 30, he had reportedly lost a beloved father, mother and friend "in tragic circumstances".

"Mario's vibrant spirit and love for his family and all the children he taught were evident to everyone who had the pleasure of knowing him,"

"He leaves behind his loving wife, Sharlene, and his four beautiful children, Danielle, Antonio, Luca and Aarana."

"I am saddened by the sudden and tragic loss of Judge Martinez. He was always committed to making sure that our judges were serving the public to the best of their ability," Colorado Supreme Court Chief Justice Brian Boatright said in a news release.

Thursday, November 2, 2023
Colorado Springs - The Honorable Gilbert "Gil" Martinez, a sitting senior judge and retired District Court Chief Judge of the 4th Judicial District, has died at the age of 72.
Judge Martinez was on a hunting trip with family when he collapsed while deer hunting on Oct. 31, 2023. After returning to camp following a hunt in deep snow from the mountain storm, Judge Martinez collapsed and was not able to be resuscitated.
"I am saddened by the sudden and tragic loss of Judge Martinez. He was always committed to making sure that our judges were serving the public to the best of their ability," Colorado Supreme Court Chief Justice Brian Boatright said. "Everyone who met him instantly liked and respected him. He was a judge's judge, and an integral part of the community he so proudly served."
Chief Justice Boatright added that Judge Martinez was so well respected

Now, inspectors have allegedly found human meat and horse meat in the freezer's of an Oklahoma City McDonald's meat factory. Human meat was also recovered in several trucks that were on their way to deliver the patties to the fast food restaurants. According to various reports, authorities have inspected factories and restaurants across the country and have found human meat in 90% of the locations. Horse meat was found in 65% of the locations. FBI agent Lloyd Harrison told Hazle reporter, "The worst part is that it's not only human meat, it's child meat. The body parts were found across the US factories and were deemed too small to be adult body parts. This is truly horrible".

This happens to patients at the vaccination site, and patient goes into anaphylactic shock. So it usually happens on the day of the injection, and the nanoparticles that keep circulating in the blood for a long time are the production of nanoparticles(spike).

The messenger (RNA) and spike proteins were detected in the blood of vaccinated people a few months later

There's even a paper that says they were able to detect it, which means that it circulates and enters the cells of all organs.

The liver and spleen are the most common, but the third is bone marrow. The cell division that creates blood cells is extremely intense. The fourth one gathers in the ovaries, and the fifth and sixth ones have testicular conditions.

The vaccine is concentrated in the organs that create the next generation in both women and men."

What ingredient in the "live virus" polio vaccine caused paralysis: Likely Acanthamoeba ("brain eating" amoeba). This amoeba was discovered in the monkey tissue cultures used for the vaccine. "they were laboratory curiosities that appeared in primary monkey tissue cultures". /1

microenvironment that cycle energy and prey on other small organisms without having any direct importance to mankind. In the late 1950s, it became necessary to reconsider whether these small amebas were as innocuous as they had been thought to be. At first, they were laboratory curiosities that appeared in primary monkey kidney tissue cultures grown for production of poliomyelitis virus. Some of these organisms were then found to produce disease in laboratory rodents inoculated experimentally. In the early 1960s, 19 isolates of amebas were made from human respiratory tracts as incidental findings in a study on respiratory viruses. Starting in 1965 a spate of fatalities caused by free-living amebas was seen in humans in Australia, Florida, Texas, and Czechoslovakia.

The question then arose as to the importance of these organisms in human and animal health. We now know that free-living amebas of a dozen or more species are facultative parasites of humans and other animals, and that a few can cause serious, even fatal disease. There have been about 200 well-documented cases of fatal amoebic disease in humans worldwide.

Dear Lord Rothschild,

I have much pleasure in conveying to you, on behalf of His Majesty's Government, the following declaration of sympathy with Jewish Zionist aspirations which has been submitted to, and approved by, the Cabinet

"His Majesty's Government view with favour the establishment in Palestine of a national home for the Jewish people, and will use their best endeavours to facilitate the achievement of this object, it being clearly understood that nothing shall be done which may prejudice the civil and religious rights of existing non-Jewish communities in Palestine, or the rights and political status enjoyed by Jews in any other country."

I should be grateful if you would bring this declaration to the knowledge of the Zionist Federation.

The split second court opens on Monday, X Corp will be filing a thermonuclear lawsuit against Media Matters and ALL those who colluded in this fraudulent attack on our company

Stand with X to protect free speech!

This week *Media Matters for America* posted a story that completely misrepresented the real user experience on X, in another attempt to undermine freedom of speech and mislead advertisers.

Above everything, including profit, X works to protect the public's right to free speech. But for speech to be truly free, we must also have the freedom to see or hear things that some people may consider objectionable. We believe that everyone has the right to make up their own minds about what to read, watch, or listen to – because that's the power of freedom of speech.

Despite our clear and consistent position, X has seen a number of attacks from activist groups like *Media Matters* and legacy media outlets who seek to undermine freedom of expression on our platform because they perceive it as a threat to their ideological narrative and those of their financial supporters. These groups try to use their influence to attack our revenue streams by deceiving advertisers on X.

Here are the facts on *Media Matters'* research:

- To manipulate the public and advertisers, *Media Matters* created an alternate account and curated the posts and advertising appearing on the account's timeline to misinform advertisers about the placement of their posts. These contrived experiences could be applied to any platform.
- Once they curated their feed, they repeatedly refreshed their timelines to find a rare instance of ads serving next to the content they chose to follow. Our logs indicate that they forced a scenario resulting in 13 times the number of ads served compared to the median ads served to an X user.
- Of the 5.5 billion ad impressions on X that day, less than 50 total ad impressions were served against all of the organic content featured in the *Media Matters* article.
 - For one brand showcased in the article, one of its ads ran adjacent to a post 2 times and that ad was seen in that setting by only two users, one of which was the author of the *Media Matters* article.
 - For another brand showcased in the article, two of its ads served adjacent to 2 posts, 3 times, and that ad was only seen in that setting by one user, the author of the *Media Matters* article.
- *Media Matters'* article also highlights nine posts they believe should not be allowed on X. Upon evaluation, only one of the nine organic posts featured in the article violated our content policies, and we've taken action on it under our Freedom of Speech, Not Reach enforcement approach.

Here's a summary on this all:

1. X will protect the public's right to free expression. We will not allow agenda-driven activists, or even our own profits, to defer our vision.
2. Everyone has a choice on X. User and brand control on X is superior to a year ago.
3. Data wins over allegations. *Media Matters* does not reflect the user experience on X.

As we've seen in some parts of the world, when free expression is taken away, it is very dangerous and hard to get back – that's why the people who came before us fought so hard to protect. Without freedom of speech we lose the checks and balances critical to a thriving democracy. We must defend our individual rights as if our lives, and flourishing society, depend on it.

If you're really in on protecting free speech, then we all need to protect it completely.

Stand with X to protect free speech.

Dr. Fauci,

In addition, I found the attached review on masks that addresses use in the community settings. Attached are the paper and figure 3, which summarizes the data from 9 very diverse RCTs (overlapping with what I had sent earlier).

Bottom line: generally there were not differences in ILI/URI/or flu rates when masks were used, although when early use and compliance was taken into account, a few times a difference was seen.

In addition:

This case control study noted that, among SARS patients in Hong Kong without a known source of infection, cases (27.9%) were less likely than uninfected controls (58.7%) to report wearing a mask frequently in public, for what that's worth.
https://wwwnc.cdc.gov/eid/article/10/4/03-0628_article

Overall, this doesn't change my opinion that I can see an argument for a theoretical benefit but that data is scarce and studies have many flaws but passing on the additional information.

Emails show that leading officials at NIH, including Fauci, knew the best data indicated no benefit from masks.

Why did they proclaim great benefits of masks anyway?

Because these officials were not managing a virus using science.

They were managing fear using psychology.

the most characteristic organic compounds existing in the body; they are only known as obtained from living beings, having never yet been artificially constructed in the laboratory; a good example is found in the white of an egg, which consists chiefly of albumen dissolved in water. All the tissues of the body which have any marked physiological property contain some albuminous substance, only such things as hairs, nails, and teeth being devoid of them. All albuminous bodies contain nitrogen, carbon, hydrogen, and oxygen; most of them sulphur and phosphorus in addition. The more important ones found in the body are, (1) *Serum albumen*, which is very like egg albumen, and is found dissolved in the blood; (2) *Fibrin*, which forms in blood when it clots; (3) *Myosin*, found in the muscles and "setting" or coagulating after death, when it causes the death stiffening; (4) *Casein*, found in milk, and forming the main bulk of cheese.

Fats belong to the organic compounds in the body which contain no nitrogen; they consist solely of carbon, hydrogen, and oxygen. The chief fats in the body are *palmatin*, *stearin*, and *olein*; by proper treatment each can be split up into *glycerine* and a fatty acid; *palmitic*, *stearic*, or *oleic acid* as the case may be.

What is found in addition in some of them? How many chief varieties of organic compounds are there in the body? Name them.

Give another name for albuminous substances. Can they be made artificially? Give an example of an albumen. What elements do albumens contain? Name the more important albumens of the body. Where are they found?

What elements do fats contain? Name the chief fats of the body. Into what may they be decomposed?

Calcium, along with its congeners magnesium, strontium, and barium, was first isolated by Humphry Davy in 1808. Following the work of Jöns Jakob Berzelius and Magnus Martin af Pontin on electrolysis, Davy isolated calcium and magnesium by putting a mixture of the respective metal oxides with mercury(II) oxide on a platinum plate which was used as the anode, the cathode being a platinum wire partially submerged into mercury. Electrolysis then gave calcium–mercury and magnesium–mercury amalgams, and distilling off the mercury gave the metal.^{[30][37]} However, pure calcium cannot be prepared in bulk by this method and a workable commercial process for its production was not found until over a century later.^[35]

Some calcium compounds were known to the ancients, though their chemistry was unknown until the seventeenth century. Calcium compounds are widely used in many industries: in foods and pharmaceuticals for [calcium supplementation](#), in the paper industry as bleaches, as components in cement and electrical insulators, and in the manufacture of soaps. On the other hand, the metal in pure form has few applications due to its high reactivity; still, in small quantities it is often used as an alloying component in steelmaking, and sometimes, as a calcium–lead alloy, in making automotive batteries.

Introduction

Chromium, as trivalent (+3) chromium, is a trace element that is naturally present in many foods and available as a dietary supplement. Chromium also exists as hexavalent (+6) chromium, a toxic by-product of stainless steel and other manufacturing processes [1,2]. This fact sheet focuses entirely on trivalent chromium.

June 17, 2021 Email from Dr. Morens to colleagues

Dear ASTMH Colleagues,

The attached request for document production from 5 US Senators relates to some of the issues we have been dealing with over the past year, focusing on the origins of COVID-19, the termination [sic] of NIH's major sarbecovirus grant, and related issues.

It requests documents from myself and the senior leadership of NIAID, and also mentions two other ASTMH members.

As you may know, NIH correspondence between me and others, including my boss, concerning COVID-19 origins, had previously been FOIA'd and published in the press.

This request is NOT A FOIA, and I have not yet been asked to respond directly because, presumably, HHS is deciding how to respond, if at all.

Nevertheless, a couple things should be said here....

First, I have retained very few emails or documents on these matters, and continue to request that correspondence on sensitive issues be sent to me at my gmail [sic] address, [Dr. Morens' Gmail address].

I have tried to make sure I have retained no documents that might lead other members of ASTMH to be approached for similar document production. The exception is normal correspondence surrounding last year's publication in AJTMH of the two pieces on this subject. There is NO PROBLEM with those publications, and no reason to worry, since the papers were published and are widely available in the public domain, and I, as a co-author on one of those papers, have made my views widely known in a variety of venues in the press and in public.

My feeling about this is that I have nothing to hide or worry about, and that my views are based on scientific evidence, and I am comfortable in explaining and defending those. Furthermore, I am comfortable in defending the importance of the work done in [sic] terminated grant and why I believe this work must continue. I feel certain that the leadership here agrees with this.

So, in other words, I don't think there is anything to worry about because there is no "there" there.

But this is yet another reminder that it is important to speak up as scientists on critically important issues of the day. ASTMH can be proud that we have spoken up about these matters in the past, and I hope we will continue to do so.

Thanks, David Morens

Director [Rob Reiner](#) and journalist Soledad O'Brien have dug into the assassination of President John F. Kennedy — and they claim they have found evidence about who was really behind the killing.

Reiner and O'Brien are the co-hosts of “Who Killed JFK?”, a 10-part podcast series featuring interviews with authors, witnesses, CIA officials and forensic experts as part of their investigation into JFK’s assassination 60 years ago, on Nov. 22, 1963. The podcast also includes an interview with a former Secret Service agent who earlier this year came forward with “groundbreaking new evidence,” according to [iHeartMedia](#), which is distributing the series.

जनता को बेवकूफ बनाकर लगवाया गया अब heart attack को life style, खानपान, प्रदूषण से जोड़ कर दुबारा बेवकूफ बनाया जा रहा है लोग मर रहे हैं और Agenda 2030 पूरा हो रहा है !
2030 तक 86% जनसंख्या कम करने का लक्ष्य है !
खैर जीवन-मृत्यु तो चलता रहेगा पर 2024 में मंदिर बन जाएगा !!

Translated from Hindi by Google

The public was fooled Now they are being fooled again by linking heart attack with lifestyle, food, pollution, people are dying and Agenda 2030 is being completed !

The target is to reduce the population by 86% by 2030 !

Well, life and death will continue but the temple will be built in 2024 !!

Bolsonarists Freak Out over Video of President in Freemasonry

On Telegram, the video has generated a chain of disappointment and a countercurrent of justifications in defense of Bolsonaro

Oct.5.2022 1:48PM

"Good morning friends, I have seen the news that our president is a Freemason, and I am very disappointed." This is one of the comments that exemplifies part of the disappointment of some Bolsonarists in Telegram groups this Tuesday (4) when a video of Jair Bolsonaro (PL) speaking to Freemasons returned to circulate on the internet. "Is Bolsonaro a Freemason?", "Freemasonry created communism", "I can't believe I have campaigned for four years for a Freemason", "I wouldn't even go close to a Freemason's profile. Satanist garbage!" and "Guys, the video is true, there's no point denying it. The question now is, why is our president participating in Masonic

Attorney Accuses the CIA and DoD of Being Deeply Involved With COVID-19

“When someone got this [COVID] shot. They didn’t get it from Pfizer or Moderna. They got it from the DoD. **The DoD distributed this,**” testified Attorney [@RenzTom](#) during the “Injuries Caused by COVID-19 Vaccines” hearing. “The contract with our federal government requires it to distribute this; the DoD had to ensure that there was absolute immunity. If you want to sue someone right now, you’re going to have to sue the DOD. Good luck!”

Next, Attorney Renz raised questions about EcoHealth Alliance’s role in creating SARS-CoV-2, in which he developed a legal case against the organization:

“That case alleges that EcoHealth Alliance worked with the CCP and Wuhan lab and created, well, this nightmare that we’ve had. Let me ask you something. Does anybody in this room believe that we could transfer the technology necessary to do

This culture is madness sick!

Imagine you are a young man sleeping in your bedroom. In the bedroom directly below, your aunt lies asleep. Now imagine that an earthquake happens that collapses your floor, causing you to fall directly on top of her. For the sake of argument, let's assume that you're both nude, and you're erect, and you land with such perfect precision on top of her that you unintentionally achieve intercourse. Is the child of such an encounter halalzadeh (legitimate) or haramzadeh (a bastard)?

I'm a 30 year old woman, I got the Pfizer vaccine back in September. After the second dose, I actually had heart pain and pressure. It's sporadic and comes and goes with weeks in between, but it's worrying. I can't say I blame people for not wanting to get vaccinated, just be sure to look after yourself. There are times I regret getting it, because my heart was fine before.

4.4 Genotoxicity (Mutagenicity)

Genotoxicity studies have not been performed with AZD1222. Consistent with WHO guidelines on the nonclinical evaluation of vaccines (WHO 2005), genotoxicity studies are normally not required for the final vaccine formulation and therefore have not been conducted.

4.5 Carcinogenicity

Carcinogenicity studies have not been performed with AZD1222. Consistent with WHO guidelines on the nonclinical evaluation of vaccines (WHO 2005), carcinogenicity studies are not required for vaccine antigens. AZD1222 is a replication deficient, non-integrating adenovirus vector so there is no risk of carcinogenicity. To date there have been no clinical reports of chromosomal vector integration following adenovirus vector-mediated gene transfer.

4.6 Developmental and Reproductive Toxicity

An evaluation of the impact of AZD1222 on embryo-foetal development was completed in a dose-range study (490838). The main GLP embryo-foetal development study is ongoing with an audited draft due end January 2021.

Intramuscular administration of AZD1222 to groups of CD-1 female mice on Day 1 (13 days prior to pairing for mating) and again on Gestation Day (GD) 6 at 2.59×10^{10} per occasion (embryo/fetal development phase), or on GD 6 and GD 15 at 2.59×10^{10} per occasion (littering phase) was well tolerated (490838). Anti-S glycoprotein antibody responses were raised in dams following administration of AZD1222 and these were maintained through the gestational and lactation periods. Seropositivity of fetuses and pups was confirmed and was indicative of placental and lactational anti-S glycoprotein antibody transfer, respectively. There were no AZD1222-related effects seen for dams in-life including at the injection site, for female reproduction, fetal or pup survival and no abnormal gross pathology findings in pups or in dams in either phase. There were no AZD1222-related fetal visceral or skeletal findings.

4.7 Local Tolerance

Local tolerance of AZD1222 was evaluated as part of the repeat dose toxicity study in mice (513351). There was no erythema or oedema at the injection sites after administration of

Bill Gates' Vaccine Crime Record: 496,000 Paralyzed Children In India And More

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6121585/>

"Indian doctors blame the Gates campaign for a devastating vaccine-strain polio epidemic that paralyzed 496,000 children between 2000 and 2017"

"In 2017, the World Health Organization reluctantly admitted that the global polio explosion is predominantly vaccine strain, meaning it is coming from Gates' Vaccine Program.

The most frightening epidemics in Congo, the Philippines, and Afghanistan are all linked to Gates' vaccines. By 2018, ¾ of global polio cases were from Gates' vaccines."

"In 2010, the Gates Foundation funded a phase 3 trial of GSK's experimental malaria vaccine, killing 151 African infants and causing serious adverse effects, including paralysis, seizure, and febrile convulsions, to 1,048 of the 5,949 children."

Also 'Participate' In It:
Delhi High Court**

"In any event, this Court wishes to take note of the fact that in numerous cases pending trial, unfortunately, there is a recent growing trend wherein an accused, despite either making a statement through counsel in the Court or despite conditions being imposed by the Court, merely chooses to 'physically' join investigation on paper, without any actual participation," Justice Saurabh Banerjee said

Seizure Of Journalists' Digital Devices A Serious Matter, Better Guidelines Needed To Protect Media Professionals : Supreme Court To Centre

"There are hundreds of journalists whose digital devices are taken away en masse. The issues raised in this petition are very significant because there are no guidelines with reference to when and what may be seized, what can be accessed, what kind of protection is ensured for personal data, health data, financial data...The entire digital footprint is on that one device. Once an investigating agency is involved, it's not like the person can have a back-up..."

"Pfizer did not highlight a DNA sequence in its COVID-19 vaccine, a European regulator has confirmed.

"While the full DNA sequence of the plasmid starting material was provided in the initial marketing authorization application for Comirnaty, the applicant did not specifically highlight the SV40 sequence," the European Medicines Agency (EMA) told The Epoch Times in an email.

An EMA spokesperson said earlier this year that there was "no evidence to indicate the presence of SV40 ... in the formulation of COVID-19 vaccines."

The EMA is now acknowledging that statement was not correct."

Another conspiracy theory come true.

Why aren't we talking about this? I still want to know why hospitals were given thousands of dollars from the government every time they put a ventilator on someone, and were further incentivized if the patient died rather than if they were cured.
